## **Education**

Ph.D. in Physics (ongoing)

Cambridge, MA, USA

MASSACHUSETTS INSTITUTE OF TECHNOLOGY

August 2022 - Ongoing

• C.G.P.A - 5.0/5.0

Supervisor: Prof. Leonid Levitov

Master of Science in Physics

Bangalore, India

Indian Institute of Science

Aug. 2021 - Jun. 2022

C.G.P.A - 9.8/10.0

**Bachelor of Science (Research) in Physics** 

Bangalore, India

INDIAN INSTITUTE OF SCIENCE

C.G.P.A - 9.8/10.0

Aug. 2017 - Jun. 2021

# **Research Articles**

# **Research Experience**

#### Aspects of spin chirality in time-reversal symmetry broken systems

MIT, Cambridge, MA, USA

WITH PROF. LEONID LEVITOV

2024 — Present

- Demonstrated that spin chirality is spontaneously generated in time-reveral symmetry broken systems without any spin-orbit coupling
- Predicted that this effect can be utilized in detecting topological superconductors

#### Non-Fermi liquids resulting from subsystem symmetry breaking

MIT, Cambridge, MA, USA

WITH AJESH KUMAR

2024 — Present

• Demonstrated that subsystem symmetry breaking in van der Waals heterostructures can give rise to an anisotropic non-Fermi liquid, with quasiparticle lifetime  $au \sim \frac{1}{|\omega| \log|1/\omega|}$  and specific heat  $C \sim T(\log(1/T))^2$ .

#### Transport in ordered phases in graphene

MIT, Cambridge, MA, USA

WITH PROF. LEONID LEVITOV

2023 — 2024

- Predicted that momentum-polarized nematic phases in biased bilayer graphene can lead to resistance decreasing with rising temperature
- Demonstrated hysteresis-like switching behavior under the action of a strong electric field

#### Many Body Localization (MBL) and thermalization of interacting quantum spin chain

IISc, Bangalore, India (Master's thesis)

WITH PROF. SUBROTO MUKERJEE

September 2021 - April 2022

- · Studied how the Out-of-Time Ordered Correlator (OTOC) behaves for MBL and thermal systems
- Studied behavior of OTOC in MBL systems with random and incommensurate potential, with and without interaction

#### Topological phases in projected lower dimensional branes

MPIPKS, Dresden, Germany (remotely)

JOINTLY WITH PROF. BITAN ROY AND PROF. VLADIMIR JURIČIĆ

June 2021 - September 2021

- · Verified the existence of dislocation modes, Weyl points, and Landau levels in projected crystals and Fibonacci quasicrystals
- Proposed how this method can be utilized to study higher dimensional (>3D) topological phases within 3D systems

#### Berry curvature effects on thermoelectric transport

IISc, Bangalore, India (Bachelor's thesis)

WITH PROF. SUBROTO MUKERJEE

October 2020 - June 2021

- · Found a condition on the energy magnetization such that the Einstein relation holds for the transport energy current in these systems
- · Analytically solved the Boltzmann transport equation (including Berry curvature effects) for two-dimensional systems

#### **Non-Hermitian Topological Insulators and Dislocations**

MPIPKS, Dresden, Germany

(remotely)

WITH PROF. BITAN ROY

May 2020 - September 2020

- · Obtained phase diagrams for regimes where topological states get pinned at dislocation centers
- · Proposed how dislocations can be used to probe topological phases in non-Hermitian systems, where the non-Hermitian skin effect masks the traditional bulk-boundary correspondence

## Research Interests

#### **Broadly interested in theoretical Condensed Matter Physics**

- · Non-Fermi Liquids emerging due to subsystem symmetry breaking
- · Spin chirality in systems with spontaneously broken time-reversal symmetry
- · Electronic transport in two-dimensional systems and the effects of Berry curvature in transport
- Computational methods in quantum condensed matter physics
- · Topological phases of matter and Quantum Phase transitions

## Skills\_\_\_

**Programming skills** Julia, MATLAB/Octave, Mathematica, Python

Advanced Physics Courses Strongly Correlated Systems, Advanced Statistical Physics, Quantum Field Theory I, General Relativity

**Languages** Fluent in English, Bengali, Hindi

## Talks

#### **Transport Signatures of Electronic Ordering in Graphene Flat Bands**

Indian Institute of Science,

Bangalore, India

January 2024

# Topological phases in quasicrystals: A general principle of construction

CLICK HERE TO DOWNLOAD THE PRESENTATION

CLICK HERE TO DOWNLOAD THE PRESENTATION

APS March Meeting (virtually)

MPIPKS, Dresden, Germany

March 2022

#### Dislocation as a bulk probe of non-Hermitian topology

(remotely)

July 6, 2021

# **Teaching Experience**

CLICK HERE TO DOWNLOAD THE PRESENTATION

#### **Physics II: Electricity and Magnetism**

MIT

**TEACHING ASSISTANT** 

Feb - May 2024

• Taught students one-on-one in office hours and graded exams

# **Academic Achievements**

2023	Qualified among the top 16 participants in MIT Integration Bee	MIT
2022	1st Rank in India in CSIR-NET (JRF) 2021 in Physics, held in February 2022 due to COVID (score 186/200)	India
2022	1st Rank in India in Graduate Aptitute Test in Engineering (G.A.T.E.) in Physics	India
2017-22	CGPA 9.8/10 in B.S. (Research) and M.S., received Prof. R. Srinivasan Medal for highest CGPA in batch	IISc, Bangalore
2017	1st rank (99.2 %) in Board in Higher Secondary Examination, among about 0.7 million candidates	West Bengal, India
2015	2nd rank (97.57 %) in Board in Secondary Examination, among about 1 million candidates	West Bengal, India
